

Pragati Systems

Writing & Display Board | School Furniture | Office Supplies | Educational Aids

About Us

About Us

Nurtured from the seed of a single great idea- to provide educational aids at affordable rates, Pragati Systems went on to pioneer the entire Office Supplies and Educational Aids industry in India. What started as a small stationery outlet in central India in 1957 has now evolved into a group of companies (visit www.pragatisystems.com for more details) based out of Indore, all working together in harmony to achieve their common goal- to make knowledge sharing easier and inexpensive by delivering high-quality products. After all, education is the most powerful tool which can be used to change the world and make it a better place for living. At Pragati Systems, we manufacture a range of office supplies, art supplies, educational aids, display & drawing stands, training & presentation accessories and interactive classrooms. We deliver world-class products and services by combining technical expertise, quality commitments, and innovation. At heart, we are a customer-centric organization built on the foundation of business-friendly policies and motivated individuals, a blend that allows us to achieve 100% customer satisfaction.

Our Presence

- Domestic presence in 26 Indian states through a well-established dealer network.
- International distribution across Asian, African, European and American countries.

Our Promise

- 100% Manufactured in India
- 100% Quality Assurance
- 100% Satisfaction Guaranteed

Our Mission and Vision

Our mission is to foster learning through excellence and innovation. Our vision is to be a respectable organization remembered for our values.

Company Profile

Our manufacturing units are spread across an area of 250,000 square feet in the central part of the country at Indore, Madhya Pradesh. Our production units embrace Ecofriendly manufacturing practices by harnessing solar energy, using recycled raw materials and strictly adhering to pollution control policies. We believe in giving back to mother earth - the green agenda of sustainability and respect for nature is what drives us.

Fabrication Shop

Our state of the art fabrication shop is equipped with the most advanced sheet-metal and tubular steel processing machines like CNC laser cutting, CNC pipe bending, iron workers and shearing machines. The metal cutting line runs parallel to the welding shop, which is fully capable of producing precision joints through jig based welding of components using MIG, TIG and spot welding machines.

Press Shop

The press shop consists of multiple semi-auto mechanical and hydraulic presses of capacity 2T to 12T. Our special purpose presses are capable of bending a variety of materials in different thicknesses, shapes and form.

Panel Processing

Our panel processing line is equipped with modern day CNC panel saws, CNC edge banders, multi-boring drills, semi-auto glue applicators as well as hydraulic & mechanical panel pasting machines, allowing us to process a range of laminates and processed wood.

Tool Room & Plastic Molding

Our tool room is equipped with all standard metal cutting machines tools such as lathes, milling machines, drilling machines and surface grinders. All plastic components are designed and molded in-house on CNC vertical injection molding machines.

Paint Shop

All our products are epoxy powder coated for maximum corrosion and scratch resistance. We deploy a manual line of epoxy powder coating in which part preparation, powder application, and curing are carried out separately via 8 tank process as per industry standards for the best results.

Why Us?

We value our customers more than anything else and are willing to turn the world upside down to exceed their expectations. When you join hands with us, you tie a permanent knot with a trust-worthy, quality-centric and customer-oriented organization that is not merely a manufacturing unit, but your reliable partner in growth.

Strong Management & Leadership

To achieve the highest levels of customer satisfaction, the management is divided into various departments (and sub-departments) with dedicated teams monitoring each. The key functional areas are Production, Operations & Compliance, Product and R&D, Sales & Marketing, Human Assets, Finance & Accounts and IT. With a clear division of roles and responsibilities for each department, we are always able to respond to our customer needs in the least possible time with the most efficient solutions.

Effective Communication

Our internal as well as external communication channels are powered by Odoo 10.0, a fully equipped ERP platform. Integrated with 20 different modules to manage various business activities, Odoo not only allows us to keep a powerful track of things, it also makes the entire communication channel highly effective. This ultimately allows us to deliver a great experience by ensuring smooth and system driven processes of ordering, manufacturing and tracking.

Quality Assurance

All our products (including the key raw materials) are 100% manufactured in India. This not only allows us to support a national cause, but also gives us 100% control over quality of the raw materials as well as the finished goods. All production batches have to pass multiple stages of stringent quality checks before final assembly and packaging so that all items are 100% quality assured.

Express Distribution

All LTL shipments are shipped via Fedex or Rivigo, our 3PL partners for pan India distribution. Our partnership with the industry leaders allows us to deliver the material safely in the least possible time to any part of the country. A make-to-stock inventory model backs our distribution network and allows us to fulfill any order within 15 days.

Creative Engineering

We believe in creating products that are highly utilitarian yet affordable. We use advanced computer aided engineering softwares like Solidworks and Ansys, that allow us to constantly optimize our product designs by virtual prototyping, testing and validation, thus allowing us to come up with just the perfect match of utility, price and quality.

Our Core Value

Guaranteed Satisfaction

For us, it is about going all in to exceed expectations at all levels and delivering satisfaction. Satisfaction is the first and foremost measure of growth in our organization.

Customer Centricity

For us, our internal and external customers are at the heart of every decision-making process and define how we act. No matter what, the customer is and will always remain our top priority.

Change

For us, change is the only constant. We keep trying our hands at new tools, technology and management practices and learn from our mistakes to become a better organization every day.

Integrity

For us, integrity is our only shot at achieving our goals. Honesty towards work, transparency with our partners, sense of responsibility for the society and respect for law give direction to our strategy.

Commitment

For us, it is never about contribution, it has always been about commitment. A commitment to not settle for good and strive for greatness in all aspects of our business, to deliver values to our customers as promised.

Quality Policy

CEO's Quality Statement

Quality is an integral part of Pragati Systems' Corporate Business Principles. These principles guide our actions to provide our customers with the highest quality products by assuring their performance, consistency and value. Our commitment towards quality is rooted in our corporate values and is essential in our continued growth and success.

We will meet our comprehensive "Quality Standards" in the design, manufacturing, distribution as well as after-sales service of our products and will exceed regulatory requirements and consumer expectations across our business verticals. At its core, Quality is first and foremost about trust in our products, our services and in our brands. But Quality is also more than this. It is about delivering what we promise in everything we do. Each and every one of us has the power to influence Quality and trust through our leadership, dedication and passion.

We will become a Total Quality Company by continuously improving our processes by self-motivation, learning and training to achieve 100% satisfaction of our internal and external customers.

Quality Targets (FY 2018-2019)

The management has set the following quality goals for the financial year 2018-19:

- Order Defect Rate < 0.5%
- Customer Claims = 0
- Recycled Raw Materials > 50%
- Streamline Operations Processes

Certifications

- ISO 9001:2008
- NSIC
- BIFMA

Product Portfolio

Office & Presentation Supplies

- Whiteboards
- Pin-up Display Boards
- Notice Boards
- Combination Boards
- Flip-chart Stands
- Flip-chart Stands with Whiteboards
- Presentation Stands
- Mobile Whiteboard Stands
- Projector Wall Mounts
- Projector Ceiling Mounts
- Whiteboard Marker
- Whiteboard Duster

Art Supplies

- Canvas Rolls
- Canvas Panels
- Stretched Canvas
- Easels
