

We are democratising education with

Education  
for All

Join us on this journey towards change.

What if we told you,  
your support can help us empower

## **5 million children from underserved communities by 2025?**

Join hands with us to create greater access to education and to make sure no child is ever left behind. We want to take the power of education to all by:

Enabling learning through technology

Making learning inclusive and effective

Creating access to quality education and impactful learning experiences

# The difference we've made so far

- We've helped **1.2 lakh students** access quality education in only 6 months
- **80,000+** free login access to BYJU'S learning content
- Districts covered: **100+**
- States impacted: **20**
- Devices distributed: **3000+ devices**
- Partners we joined hands with: **25+**
- Schools/community centres impacted: **200**

Your support can help these numbers grow.

## Who can partner with us?

### Corporates

With the support of corporations, we will be able to reach millions of children and offer our study material free of cost.

### Not-for-profits

With the insights and outreach of NGOs at the grassroot level, we can truly help communities and children at large.

### Schools

Our one-to-many learning product - BYJU'S TV can help students get access to quality education, irrespective of geographical locations, fostering learning.

### Individuals

Individuals can donate a device or support and fund the education of a child in need, or volunteer to mentor a child.

# Partners who've joined hands with us

Focussed on improving the lives of India's under privileged, with a special focus on women, children, and youth.

Empowers young people from underprivileged families through various education-based initiatives, and equips them with employable skills so they can grow and live with dignity.

Vahdam's TEAch Me initiative in partnership with BYJU'S empowers children of tea estate workers with digital learning.

Focus on education, income and health by mobilizing the 'caring power' of communities to enable collective progress.

Gives children in India and around the world a healthy start in life, the opportunity to learn and protection from harm.

Works with rural government schools to create empowered individuals through education.

Works with more than 3.75K children and 7.6K volunteers from marginalised communities in India.

# What our partners have to say

“

It's been wonderful collaborating with BYJU'S to make ed-tech based education mainstream in very marginalised areas. With this partnership, AIF has been able to leverage BYJU'S vast content creation capabilities to bridge the digital divide and provide equal opportunities to the socially and economically disadvantaged section of society.

**Mathew Joseph**, Country Director, American Indian Foundation (AIF)

”

“

With BYJU'S learning material, the children we work with are now able to refer back to what's been taught in the classroom. Now that's a great development!

**Kamal Gaur**, Deputy Director Programmes: Education, Save the Children

”

“

Collaborating with BYJU'S has helped us scale up our teaching program by ensuring we bridge the digital divide and enable every child to receive an education

**Ketan Desai**, Chief Educator, Vahdam

”

“

We are delighted to see BYJU'S provide high-quality learning content that is best in the country to children from underserved backgrounds. These students are currently studying in government schools supported by Bal Utsav (through the Sampurna Shaala & iShaala initiatives). We are grateful to our friends at BYJU'S and their commitment towards 'Education for All'. Such collaborations help #ReimagineEducation and build a better future for families in India with more learning, more fun, more skills, and more opportunity through blended learning. Thank you for making this kind of a future possible.

**Ramesh Balasundaram**, Director, Bal Utsav

”

## How we made Education for All a reality

"Thank you BYJU'S for helping me learn online."  
**Ashwin Tamang**, Student, Vahdam's TEAch Me initiative

"Thanks to Right to Live and BYJU'S, our classroom now has a television. We love watching and learning science on it."  
**Sinchan**, Class 7 student, Right to Live

"The App is exciting helps me as schools are closed, the App is easy to use and makes learning fun"  
**Madhavi Kashinath Bhatate**,  
Class 6 student from Nashik, Save the Children

"I love using the App, it helps me learn mathematics in my local language"  
**Sakhi Gaikwad**, Class 7 student, Save the Children

6. Tamil Nadu State Board
7. Andhra Pradesh State Board
8. Telangana State Board
9. West Bengal State Board
10. Punjab State Board
11. Gujarat State Board

## Let's partner for a better tomorrow!

Our learning content and technology can help you create a widespread impact on the ground. Here's how we could achieve our mission of democratising education together!

- Partner organisations and student beneficiaries will get access to free BYJU'S licenses
- Teachers can create better learning environments with high quality educational videos by BYJU'S
- Full content support from BYJU'S to ensure students get continued access to learning content even if schools are closed, while partners implement the program on ground
- Access to unlimited questions and practice papers that will enable students to perform better academically
- BYJU'S will support partners in building technology infrastructure and in building a network of technology vendors

BYJU'S is the world's leading EdTech company that provides personalised and interactive learning solutions in the K12 segment and for competitive exams such as NEET, JEE, and IAS. They earned much praise by providing their learning content for free to millions of children during the lockdown to ensure students continued to learn in the safety of their homes.
