# Keyar CM

## Beltless Fetal Monitoring Patch

Simplify labor monitoring with our easy-to-use, wireless, and beltless electronic fetal monitor. Based on ECG & EMG signal-based to ensure clear differentiation between the maternal and fetal heart rate. Also, measures contractions without any additional probes.

### Single Time Placement

No need to move the probe to relocate the baby's heartbeat. Lets you focus on the care and monitor with ease.

### Mother's Comfort & Mobility

Continue the monitoring even while mothers are walking. No belt, no wire, only freedom.

### Continuous Monitoring

Get constant readings of fetal and maternal vitals throughout the labor and take the right actions at the right time.

### Auto-Interpreted Reports

Make faster and more accurate decisions with ready baseline, acceleration, STV, other CTG parameters.

### Remote Monitoring

Access live graphs and digital records on your mobile with our doctor's app, anytime and anywhere.

### Digital Reports

Make your record keeping easy and if required print reports with anyprinter. Say goodbye to thermal paper.

# Keyar DT

## Wireless & Portable Fetal Monitor

Familiar Doppler and TOCO probes in wireless avatar. Suitable for prenatal NST as well as electronic fetal monitoring (EFM) during labor. Truly smart digital solution to improve the efficiency and experience of pregnancy monitoring.

### Mother's Mobility

Wireless probes allow monitoring without compromising the birthing process and options.

### Clear Heartbeat Sound

High-quality probes with multiple sensors to get accurate and clear fetal heartbeat sound.

### Remote Monitoring

Access live graphs and digital records on your mobile with our doctor's app, anytime and anywhere.

### Auto-Interpreted Reports

Make faster and more accurate decisions with ready baseline, acceleration, STV, other CTG parameters.

### Twin Monitoring

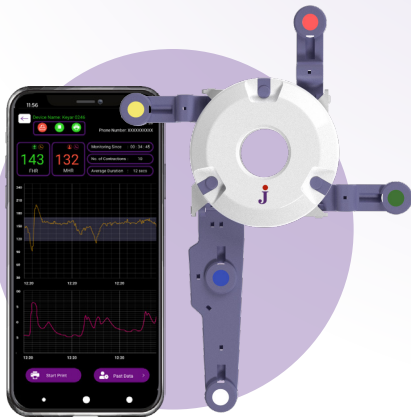

With the option to connect additional Doppler probe to monitor two fetuses at the same time.

### Monitors All Presentation

Flexible placement of probes allows getting readings irrespective of fetal presentation.

# Product Offerings

## Keyar CM (Patch only)

An affordable solution to make fetal monitoring possible for every mother.

- Connects with any smartphone.
- Portable case.

## Keyar DT (Probes only)

A reliable CTG machine to carry with you anytime and anywhere.

- Connects with any smartphone.
- Portable case with belts.

## Our Vision

We are working with a vision to see a world where no mother or baby dies during pregnancy or delivery or post- delivery.

## What drives us everyday?

Every two minutes, a woman dies from complications related to pregnancy and childbirth. More than 99% of these deaths occur in developing countries. We at Janitri are passionate about social healthcare and are working with a vision to see the world where no mother or new born dies during the pregnancy period, birth and post- delivery.
